FALL 2011**

What strengths did this instructor demonstrate that helped you to learn in this course?

- Love the in-class small exercise, but if a clear solution be posted after will be even better
- Hyper, full of energy when teaching course & using blackboard
- He was highly engaged while teaching us. Motivational. Very informative. This policy regardless missing classes was great & motivated me to come to class
- Great idea to write on black board from your note book, in some courses professors seemed scattered with their black board notes, you always came to class well prepared and I think that made the learning experience more effective.
- Awesome
- Entertaining
- He stays up to 2am to answer questions
- The spelling of “ lenght” and “chunck” kept the class fun
- In class exercises provided a means to receive immediate feedback on how we are doing with the material
- Interesting with the database early and often is beneficial
- Knowledge of the course materials, past experience with course
- Charisma
- On the fly knowledge
- Verbal presentation
- Detailed knowledge
- Focus on practical applications
- The instructor gave exercises to work in class in group which is the best part of the course
- If someone zones out during class DMG would call them out and this caused me to pay more attention
- The work sheets were good.
- Use of the blackboard! Seeing and modifying discussions on the fly was great.
- Mandatory attendance and cell phone/computer roles – most engaged class I’ve ever been in.
- Use of blackboard & in class exercises
- Used great technique of passing questions during class which kept people thinking about the subject.

Please provide specific suggestions as to how the instructor could have helped you learn more effectively.

- Nothing
- Better use of blackboard (e.g. more organized)
- Let's watch more of memento
- Please watch all of memento next time!
- Better organization on the blackboard for notes
- The notes for this course need to be improved. The order they are presented in make sense on the boards but not if transferred directly to text (can't draw lines between pages (etc))
- Encourage effective note-taking through better organized blackboard notes
- The notes on the board were very useful but messy clearer note would help!
- ?
- It would be nice to get marked assignments back before related midterms
- Asked us questions about last class
- Demanded a good learning environment

What are the main strengths of this course?

- Love the team work idea
- Team based assignment allowed to become engaged with other classmates
- Relevance to real world (which I appreciate the instructor emphasizing and covering)
- Well-structured
- Relevant unlike... say... Numerical Analysis
- Practical
- In-demand
- Engaging
- Learn sql
- Use of real-world sized data, only way to literally “see” concepts
- Prof makes H interesting
- Application to real world

Please provide specific suggestions as to how this course could be improved.

- Faster database server 😊
- MORE MEMENTO & EGGS

- Watch more movies
- More sql
- No changing teams after first assignment
- Add project
- Setting up the database or accessing it was not clear. A simple tutorial in the beginning of the course would be helpful.
