SENG 265
D. GERMAN
FALL 2002

- Dr. German is one of the best profs I have had. He has high expectations and he is willing to be there to help us get there, no matter what it takes. I feel I have learned a great deal. I wish he were teaching next semester too! Thankx for everything.

- Daniel is a competent and well organized instructor. I think many teachers could probably teach this course, but it is Daniel's open-door policy and extra-time he puts into the course that makes him stand above other teachers. Many times I have gone to see him outside office hours and each time he has welcomed me in and answered my questions. He truly cares for his students.
- His assignments/midterms are extremely hard though! I will know my stuff when I finish this though.

- Daniel German is the best Computer Science Instructor I have ever had. He makes his classes interesting while still covering a lot of material. I wish I had him as an instructor for all my classes. Coming to his class is a joy.

- D. German has a positive attitude which makes coming to class a treat.

- It would be nice if we can work in team 3 or 4. I really like the way the assignment prepared.

- The work load was too heavy.
- Dr. German's teaching was excellent.

- Daniel was a great teacher and will recommend him to other students.

- The instructor openly stated he's here to research and doesn't like to teach, and that makes baby jesus cry.

- I was satisfied with this course and have no detailed comments. - 27 responses

COMMENTS

Your comments about the course instructor, the course content, the laboratory, or any other aspect of the course are most welcome. These comments are **provided to the course instructor after the final grades are submitted.** The instructor may elect to provide copies of the comments to the Department Chair and/or the Dean of Engineering, and can also choose to include the comments from a course in his or her teaching dossier. In each case, all comments submitted for that course must be included. Comments are not typed before they are given to the course instructor unless you check the appropriate box below in which case the original form will be destroyed after typing.

I really enjoyed having Daniel as a professor. His humor and personality made him very approachable. He was very knowledgable and informed on the topics. Can't wait to take Databases with Daniel.

P.S. We should have a security class with Daniel teaching.

I really enjoyed this course, which is good, because I took it for fun. I was hoping to learn a bit more about the planning and design aspects, but I guess I'll just have to take 330 and 365 or something

The finest computer instructor (especially concerning software engineering) I've ever had.

Is genuinely concerned about his students.
